NJPDES Permit Termination
Our File No. 00031.17123

Dear Mr. Shah:

This is to confirm our recent conversation concerning the above-referenced matter. It is my understanding that the Division of Solid Waste Management has waived the 30-year monitoring requirement in the Landfill Closure and Post-Closure Plan with regard to the above-referenced facility consistent with the termination of the NJPDES permit.

As you know, a Final Permit Termination Notice was issued by the Bureau of Groundwater Pollution Abatement on June 21, 1993 for NJPDES Permit No. NJ0000108. A copy of the Permit Termination Notice cover letter is attached hereto for your reference.

You have advised that the Division of Solid Waste Management requires no further documentation or information with regard to this matter.

It is my understanding that you are preparing a letter confirming the above. I look forward to the receipt of that letter. We appreciate your assistance in resolution of this matter.

Very truly yours,

Maura E. Lichtenstein

Dear Mr Kenfield:

Re: Abex Corporation, Mahwah, Bergen County
Termination of NJPDES/DGW Permit No. NJ0000108

The Department of Environmental Protection and Energy (Department) has public-noticed its intent to terminate the above-referenced New Jersey Pollutant Discharge Elimination System (NJPDES) permit pursuant to N.J.A.C. 7:14A-1 et seq. The facility has completed all closure and post-closure requirements as specified in the NJPDES permit. Since no comments were received by the close of the public comment period, the Department is officially terminating NJPDES permit NJ0000108.

The proper individuals have been notified in order to ensure that the permit will be removed from all active case lists. If you have any question regarding the permit termination, please contact Derek Carano of the Bureau of Ground Water Pollution Abatement at (609) 292-8427.

Sincerely,

Irene Kropp, Chief.
